# FINISHING

## **ADVANCED POWDER COATING**

Delivering exceptional durability, color consistency, and long-term performance, our advanced powder coating systems are engineered for demanding architectural applications. Whether standard solids, premium mica finishes, stone effects, or custom colors, every finish is applied with precision to ensure lasting beauty and protection.

## **SUBLIMATION**

Experience the warmth and character of natural wood with the strength and longevity of aluminum. Our sublimation process permanently transfers realistic woodgrain and weathering steel patterns into the powder-coated surface, creating highly durable finishes that resist fading, peeling, and weathering.

# STANDARD WOODGRAIN FINISHES

Authentic wood appearance on aluminum.
