

LINEAR Designer

design
something
different.

Designer, because design should never be limited.

LINEAR Designer

.063" Fabricated Plank System

More sizes. More freedom.

Linear gives architects and builders the freedom to create.

Mix widths. Combine finishes. Add depth with Edge or Dimension profiles—or experiment with two-color or mixed-width designs for a truly distinctive look.

Customized
Lengths 6ft-10ft

Other sizes available.

BUILT STRONG. INSTALLED EFFICIENTLY.

LINEAR Designer plank systems have been tested to withstand ultimate wind pressures up to 180-200 PSF while utilizing attachment spacing up to 48" O.C.

NON-COMBUSTIBLE

Manufactured from aluminum, LINEAR Series provide a non-combustible architectural solution suitable for projects requiring enhanced fire performance.

INTEGRATED SPLICE PLATES

Factory-finished, color-matched splice plates create a clean, seamless appearance while simplifying installation in the field.

FINISH PERFORMANCE

Available in premium woodgrain, solid color, and faux finishes, LINEAR Designer are engineered to maintain their appearance with outstanding resistance to fading, chalking, and weathering.

LOW MAINTENANCE

Enjoy the warmth and appearance of wood without the ongoing upkeep. Our LINEAR Series requires minimal maintenance and never need staining, sealing, or refinishing.

SUSTAINABLE DESIGN

Aluminum is one of the world's most recyclable building materials. The LINEAR Series support sustainable construction practices through long service life and recyclability.

SYSTEM SPECS
